Water Supply Watersheds are classified by the State of North Carolina to assist in the protection of drinking water supplies. This feature layer displays the protected and critical areas of water supply watersheds as designated by NC DEQ Division of Water Resources. This data was uploaded in November 2014. Additional information about water supply watersheds and how these areas are classified and the rules that accompany these classifications, can be found on the NC DEQ-DWR Classifications and Standards website.

This map product was prepared from the Catawba County, NC, Geographic Information System. Catawba County has made substantial efforts to ensure the accuracy of location and labeling information contained on this map. Catawba County promotes and recommends the independent verification of any data contained on this map product by the user. The County of Catawba, its employees and agents disclaim, and shall not be held liable for any and all damages, loss or liability, whether direct, indirect or consequential which arises or may arise from this map product or its use thereof by any person or entity.
